**Subject:** Microsoft Antitrust Settlement

To the US Attorney General's Office,

I don't think the current settlement in the Microsoft antitrust case is fair. The current settlement will not prevent Microsoft from continuing its predatory practices, its anti-competitive behavior, or its harsh treatment of consumers. I wish the Attorney General would reconsider especially since the courts found that Microsoft had acted in an anticompetitive manner and that finding was upheld under appeal.

Thank you for your time.

Sincerely,  
Arthur Young
